
Dear Mr. Dorton,

I want to thank you for all of your efforts that were put into your presentation to us recently. The overall consulting job to help guarantee access to all Ukrainians is something that we would all like to work towards and certainly exceeded my expectations. It will take the help of several government agencies and possibly changing some existing laws to implement such a comprehensive plan. However, when so much is to be gained, anything is possible. I do agree that taking parts of the plan at a time are more feasible and less disruptive to the Citizens of Ukraine. As you know, Mrs. Yushchenko's desire to help the children of Ukraine is addressed and in such a way that for little to no costs, thousands of children can be helped virtually overnight. If you are able to fulfill this part of the plan, the results will likely carry your plan and will realize results almost immediately.

Thank you again for your valuable time given to this consulting project. It is very apparent that you put yourself totally into trying to help Ukrainians and particularly the children. Your efforts were a definite success.

Sincerely,

Dr. Vira Pavlyuk,
